

Fiserv Ranked First on FinTech 100 Survey of Top Technology Companies by American Banker and Financial Insights

Company listed as a top leader all five years of the survey

BROOKFIELD, Wis., Nov 13, 2008 (BUSINESS WIRE) -- Fiserv, Inc. (NASDAQ:FISV), a leading provider of information technology services to the financial industry, today announced Financial Insights and American Banker have ranked Fiserv as the No. 1 company on the FinTech 100 Survey, an annual international listing of the top vertical technology companies. This is the fifth consecutive year that Fiserv has been a top leader in this survey and has earned the top spot four of the last five years.

Fiserv, who has been ranked No. 1 in each of the FinTech survey in 2006, 2005 and 2004, was named in the No. 2 position last year. This year Fiserv regained the top spot, in part due to the acquisition of CheckFree, the industry leader in online banking, billpay and presentment.

"We are happy to be recognized as the leader among technology companies serving the financial industry. We have made many changes over the past year to sharpen our focus on delivering best-in-class value to the financial services industry," said Jeffery Yabuki, Fiserv President and Chief Executive Officer. "Our objective is to provide our clients with technology solutions which reflect the market leading innovation and quality which is the hallmark of the organization."

The FinTech 100 is the world's only ranking of providers in the financial services industry. It was developed through careful evaluation of vertical technology companies that derived more than one-third of their total annual revenues from sales to financial services industry clients.
